1. Applicant: Please give your name, mailing address, and phone number where you may normally be reached between the hours of 8:00 a.m. and 4:30 p.m. If the applicant is an organization, provide the name, address, and phone number for the individual who will be representing the organization. Also provide fax numbers and email addresses if applicable.

2. Project Description: Give a brief description of the project for which you are requesting funds.

Example: The project consists of an architectural survey of the town of Cookeville.

3. Funding: Indicate the total amount estimated to complete the project described in Item 2. Indicate the amount of funds you are requesting. The amount of funds requested must not exceed 60% of the total project cost.

4. Project Narrative: Describe in detail the project you wish to undertake with the grant sought. Describe how the project will meet the priorities and criteria for funding as explained in the grant "fact sheet". The purpose of the proposed project should be stated. Describe the scope of activities the project will undertake. Provide a detailed and specific list of final products or results expected. Describe what further use will be made of the products or results after the project is concluded. Professional services will have to be obtained through a competitive process, however, you should describe the professional qualifications of any prospective staff, consultants, or principal investigators. These must meet the requirements of 36 CFR, Part 61, Appendix A. Specifics regarding these requirements may be obtained from the Tennessee Historical Commission.

Required activities for "Survey and Inventory" include:

-preliminary research on the history of the proposed survey area;

-the survey of every drivable road or street in the survey area and the recording of all buildings or structures over 50 years old on appropriate maps and forms;

-photographs of each recorded property;

-and the preparation of a completion report at the end of the project describing the results and conclusions of the survey.

5. Project Cost: Please itemize by categories the estimated total cost of the work. The budget should include all expenditures for the proposed project. The best budget format lists itemized expenses, such as salaries or wages, transportation and office expenses, photography, and supplies. Donated goods and services proposed as match for the federal grant are included in the budget. In addition to itemizing expenses, costs may be designated as federal or local. This is particularly important if the matching portion consists of donated in-kind services or materials to ensure that the matching share is sufficient. Please be sure that the local matching portion of the budget is at least 40% of the total.
