

Key:

The spreadsheet below is the master facility list, containing all of the Subtitle D waste management facilities in TN.

The Key to deciphering this info is as follows:

Under the SITEID column, the first 3 characters identify the type of facility.

- CCC designates a Convenience Center
- CMP stands for large scale Composting facility
- DML is a Demolition/landscaping waste landfill
- IDL represents Industrial landfills
- SNL means Sanitary landfill
- SWP is Solid Waste Processing, and can include Transfer Stations

Under the OPERATING_STATUS column,

- NYO means "Not Yet Operating", a permit has been issued, but the site is not yet managing wastes
- PC means facility is in Post Closure care

Everything else is self explanatory.
